
Plan Overview

A Data Management Plan created using DMPonline

Title:

Creator:

Principal Investigator: z

Project Administrator: z

Affiliation: Other

Funder: Luxembourg National Research Fund (FNR)

Template: DCC Template

Project abstract:

The following text is a placeholder for the project abstract. It contains a large number of spaces and line breaks, which are not visible in the rendered output.

ID: 194932

Start date: 14-01-2026

End date: 14-10-2027

Last modified: 14-01-2026

Grant number / URL: www.sjdajsdhashdhas.con/

Copyright information:

The above plan creator(s) have agreed that others may use as much of the text of this plan as they would like in their own plans, and customise it as necessary. You do not need to credit the creator(s) as the source of the language used, but using any of the plan's text does not imply that the creator(s) endorse, or have any relationship to, your project or proposal

Data Collection

What data will you collect or create?

Geological data collection
Geological data collection
Geological data
Geological data collection
- Geological data
- Geological data (An) collection
- Geological data collection
Geological data (SiO₂, K₂O, Na₂O)
- Geological data collection
- Geological data (F, Cl, Li)

How will the data be collected or created?

Geological data collection (EPMA, SEM, XRF, ICP-MS)

Documentation and Metadata

What documentation and metadata will accompany the data?

1. Geological data
 - Geological data collection (An)
 - Geological data collection (F, Li)
 - Geological data (Hf, Sr, Nd) collection
2. Geological data
 - Geological data (U-Pb, Ar-Ar, U-Pb) collection
3. Geological data
 - Geological data collection
 - Geological data collection

Ethics and Legal Compliance

How will you manage any ethical issues?

Geological data

How will you manage copyright and Intellectual Property Rights (IPR) issues?

Geological data

Storage and Backup

How will the data be stored and backed up during the research?

□□□□□□□□□□□□

How will you manage access and security?

□□□□

Selection and Preservation

Which data are of long-term value and should be retained, shared, and/or preserved?

□□

What is the long-term preservation plan for the dataset?

□□□□□□□□

Data Sharing

How will you share the data?

□□□□□□

Are any restrictions on data sharing required?

□□

Responsibilities and Resources

Who will be responsible for data management?

□□

What resources will you require to deliver your plan?

□□□□□□□□□□□□□□□□□□

Planned Research Outputs

Data paper - "Apatite crystallization and growth in the presence of water"

- Abstract: "Apatite crystallization and growth in the presence of water"
- * Apatite crystallization and growth in the presence of water ~187 Ma
 - * Apatite crystallization and growth in the presence of water F₁₀₀A₁₀₀A₁₀₀
 - * Apatite crystallization and growth in the presence of water U-Pb/Ar-Ar/Ar-Ar ~185-187 Ma
 - * Apatite crystallization and growth in the presence of water Hf-Nd
2. Apatite crystallization and growth in the presence of water
- * Apatite crystallization and growth in the presence of water
 - * Apatite crystallization and growth in the presence of water An₁₀₀<10
 - * Apatite crystallization and growth in the presence of water SiO₂/K₂O+Na₂O/Fe/Mg/Ba/Sr/Eu
 - * Apatite crystallization and growth in the presence of water Sn/W/F/Li
3. Apatite crystallization and growth in the presence of water
- * Apatite crystallization and growth in the presence of water "Apatite crystallization and growth in the presence of water"
 - * Apatite crystallization and growth in the presence of water ~190-180 Ma
 - * Apatite crystallization and growth in the presence of water
